### Fund Overview

The iShares Global Agriculture Index Fund seeks to provide investment results that generally correspond to the performance of the Manulife Asset Management Global Agriculture Index (the "Index"), less fees and expenses.

The Index seeks to provide long-term capital appreciation by investing in equity and equity-related securities involved in the agricultural sector. Manulife Asset Management employs a proprietary quantitative multi-factor bottom-up selection process to select and weight the top companies involved in the agricultural sector.

Agriculture companies are those companies that operate in the following industries:

- Agricultural Products
- Fertilizers & Agricultural Chemicals
- Construction and Farm Machinery and heavy trucks
- Packaged Foods & Meats (only those that are integrated producers of food)
- Crop Production
- Raising of livestock
- Fish farming
- Manufacturer of seed
- Manufacturer of planting, harvesting, crop protection, and irrigation systems
- Manufacturer of market raw or unfinished agriculture and food products

The selection process employed by Manulife Asset Management incorporates a number of factor rankings including balance sheet ratios, earnings revisions, growth rates income statement ratios, price momentum factors, profitability ratios, proprietary factors, qualitative factors, stability ratios and valuation ratios. Each factor used in the model is weighted differently based on a proprietary algorithm that calculates the appropriate factor weight that is associated with a more consistent level of out-performance and lower volatility.

iShares® Funds are managed by BlackRock Investments Canada Inc. Commissions, management fees and expenses all may be associated with investing in iShares Funds. Please read the relevant prospectus before investing. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or operational charges or income taxes payable by any securityholder that would have reduced returns. The funds are not guaranteed, their values change frequently and past performance may not be repeated. Tax, investment and all other decisions should be made, as appropriate, only with guidance from a qualified professional.
